

Subject Index to Volume 35

A

- Acetylcholine**
and colonic motility, G1607
and intracellular contractile pathways
in esophageal muscle, G1523
- Acid-base transport**
in distal colon, of rats, G54
- Acidosis**
effects on permeability of cultured intestinal epithelial monolayers, G1007
- Acid secretion**
gastric, *see* **Stomach, acid secretion**
- Acinar cells**
pancreatic
apoptosis, G1489
AR42J, monitor peptide mRNA expression in, G794
calcium-mediated damage to, G1489
membranes
EGF-induced activation of phospholipase C- γ_1 in, G1276
PLC- β isoenzymes in, agonist-induced activation of, G135
monitor peptide mRNA expression in, regulation by cholecystokinin, G794
oxidative stress on, functional effects of, G1489
parotid, TGF- α in, TEM localization of, G553
submandibular, calcium-activated potassium channels in, and salivary fluid secretion in rats, G454
- Actin**
in colonic smooth muscle, in megacolon, G1560, G1571
filamentous, in gastric parietal cells, and morphological changes with HCl secretion, G246
in intestinal epithelial cells, and nitric oxide-induced hyperpermeability, G923
- Acute respiratory distress syndrome**
pancreatitis-associated, and protective effect of PGE $_1$, in rats, G23
- Adenosine**
endogenous, and inhibitory tone in myenteric ganglion networks, G38
- Adenosine 3',5'-cyclic monophosphate**
and altered hepatocyte signal transduction after hemorrhagic shock, ATP-MgCl $_2$ and, G1347
and calcium-dependent potassium conductance in rat submandibular acinar cells, G454
and hormone-induced calcium oscillations in rat hepatocytes, G954
and T lymphocyte migration in Peyer's patches of rat small intestine, G92
- Adenosine diphosphate**
calcium oscillations induced by, in rat hepatocytes, intracellular pH and, G954
- Adenosine 5'-triphosphate**
in cultured intestinal epithelial monolayers, acidosis-related depletion, G1007

- Adenylate cyclase, *see* Pituitary adenylate cyclase-activating peptide**
- Adrenergic nerves**
excitatory, in anorectal smooth muscle, G1075
- α -Adrenergic receptors**
 α_2 -, presynaptic, in control of glutamate release, in rat brain stem, G654
- β -Adrenergic receptors**
 β_3 -, in rat antrum, G1000
- Adult respiratory distress syndrome, *see* Acute respiratory distress syndrome**
- Aging**
decreased visceral sensation with, G1
deglutitive upper esophageal sphincter opening in, effect of exercise on, G1518
and gastroesophageal reflux events induced by pharyngeal water stimulation, G233
- Alanine**
absorption, in small intestine, capsaicin treatment and, G815
- Aldosterone**
and epithelial sodium transport, in cystic fibrosis mice, G393
and potassium absorption in distal colon, G54
- Amiloride**
and epithelial sodium transport, in cystic fibrosis mice, G393
and pH regulation in pancreatic ducts, G124
- Amino acids**
absorption, in small intestine, G815
intestinal metabolism, and dietary protein supply, G257
- Amino acid transporter B 0**
intestinal, molecular and functional characterization of, G1463
- Amylase**
pancreatic, secretion, trypsin inhibitor complexes and, G340
- Anaphylaxis**
intestinal, myenteric neurons in, G181
- Antioxidants**
see also **Catalase; Superoxide dismutase**
and hepatic fibrogenesis in chronic dietary iron overload, G116
and sphincter of Oddi motility, in opossum, G1050
- Antisense oligonucleotides**
TRH receptor, intracisternal, and gastric motor function, G1372
- Anus**
external anal sphincter
denervated, myosin isoform shift in, G698
embryology of, G698
internal anal sphincter, innervation, G1075
- AP-1 activity**
and histidine decarboxylase promoter, G822
and TGF- β 1 expression, and diminished retinoic acid signaling in hepatic stellate cells, G589

- Apolipoprotein**
secretion, by intestinal epithelial cells, in newborn swine, G935
- Apoptosis**
bile salt-induced, G1109
Bcl-2 protein and, G1587
cholangiocyte, development and application of in vitro model of, G106
hepatocyte, bile salt-induced, G1109
in pancreatic acinar cells, G1489
- Arginine**
metabolism, in enterocytes of cortisol-treated pigs, G474
synthesis, in enterocytes of postnatal pigs, G1382
- Ascorbic acid**
effects on nitric oxide-induced hyperpermeability in intestinal epithelial cells, G923
- ATP-binding cassette transporters**
in hepatobiliary transport, G1285
proteins, molecular cloning, G16
- ATP-MgCl $_2$**
effects on hepatocyte signal transduction after hemorrhagic shock, G1347
- Autonomic nervous system**
duodenum and, motilin as biosignal between, G224

B

- Bacteria**
anaerobic, in experimental colitis, G10
colonic, gas production, G1028
- Bafilomycin**
effects on proton extrusion in pancreatic ducts, G124
- Bcl-2**
hepatocellular expression of, in cholestasis, G1587
- Beauvericin**
cholangiocyte apoptosis induced by, G106
- Bethanechol**
gallbladder responsiveness to, mechanisms of, G770
- Bicarbonate**
secretion
in bovine pancreatic duct epithelial cells, G1328
chronic inflammation and, G732
duodenal
CFTR and, G872
PACAPs and, G646
vagus nerve and, G154
hepatic, vagus nerve and, G154
pancreatic, vagus nerve and, G154
- Bile**
cholesterol in, quantitation by mass isotopomer distribution analysis, G367
flow, generation of, G1285
formation, G1285
secretion
and hepatocellular bile salt traffic, G298
secretin-regulated ductal, intrahepatic bile ducts in, G1064
vagus nerve and, G154

Bile acids

- circulation, vagus nerve and, G154
- fluorescent conjugated synthesis of, G1416
- uptake by biliary ductular epithelium, G1416
- and intestinal inflammation, G1249
- transport
 - by cholangiocyte basolateral membranes, G1416
 - ovine prolactin and, in rat liver, G46

Bile ducts

- common, ligation in rat, as model of hepatopulmonary syndrome, G779
- epithelium, hormone-regulated solute transport, G289
- intrahepatic heterogeneity, G1064
- ligated, molecular and functional heterogeneity of cholangiocytes from, G289

Bile membrane

- transport properties, G16

Bile salts

- hepatocellular trafficking of, G298

Biliary excretion

- in canalicular multispecific organic anion transporter-defective mutant rats, G16
- of cyclopentapeptide, in rats, G979

Biliary transport

- carbon monoxide and, in rats, G1268
- primary active, of cyclopentapeptide, in rats, G979

Blood flow

- see also **Circulation**
- hepatic, acute liver injury and, G617
- mesenteric, nitric oxide and, G612

Bombesin

- activation of phospholipase C- β isoenzymes, in rat pancreatic acinar membranes, G135
- ceramide production stimulated by, and MAP kinase activation in intestinal smooth muscle, G1615
- and motilin release, studies in isolated canine jejunum ex vivo, G4

BQ-123

- hepatobiliary transport of, G979

Bradykinin

- in neurogenic inflammation of murine digestive tract, G785

Brain

- cerebellum, motilin-binding sites, in rabbit, G994
- dorsal vagal complex
 - PACAP in, effects on gastric motor function in rats, G1221
 - substance P in, modulation of medullary TRH-induced gastric acid secretion, G987
- nucleus ambiguus, PACAP in, effects in rats, G1221
- nucleus raphe obscurus, PACAP in, effects on gastric motor function in rats, G1221
- presynaptic α_2 -adrenoceptors, in control of glutamate release, in rats, G654
- raphe pallidus, kainic acid injected into, gastric acid response to, G987

Brush-border membrane

- sodium-dependent nucleoside transport in, in humans, G1314

Butyrate

- effect on paracellular permeability of Caco-2 intestinal cells, G705

C**Caerulein**

- pancreatitis caused by, lung injury in, and protective effect of PGE₁, in rats, G23

Calcitonin gene-related peptide

- in viscerosensitive responses to acute inflammation, tachykinins and, in rats, G141

Calcium ATPase

- in epithelial cells, sorting, stabilization, and polarity of, G1304

Calcium ions

- balance, in cultured human intestinal smooth muscle cells, oxygen free radicals and, G1439
- in cholangiocyte apoptosis induced by beauvericin, G106
- cytosolic free, in pancreatic acinar cells, oxidative stress and, G1489
- intracellular
 - in endotoxin-stimulated Kupffer cells, G1581
 - in rat hepatocytes, insulin and, G1425
 - stores, in lower esophageal sphincter, and experimental esophagitis, in cats, G1523
- mobilization, in rat hepatocytes, G1091
- oscillations, hormone-induced, in rat hepatocytes, intracellular pH and, G954
- signaling
 - endothelin-evoked, in enteric glia from neonatal guinea pig, G1175
 - purinergic, in myenteric neurons, G463

Calmodulin

- and intracellular contractile pathways in esophageal muscle, G1523
- in gallbladder, in cholelithiasis, G838

Canalicular multispecific organic anion transporter

- in diabetic rats, G374
- molecular cloning, G16

Capsaicin

- afferent nerve fiber ablation
 - in experimental colitis, G272
- vagal, and gastrointestinal motility, G100
- treatment, and alanine absorption, G815

Carbachol

- activation of phospholipase C- β isoenzymes, in rat pancreatic acinar membranes, G135
- and HCl secretion in gastric parietal cells, G246
- and motilin release, studies in isolated canine jejunum ex vivo, G4

Carbohydrate

- fermentable, urea-lowering effect of, in rats, G515

Carbon dioxide

- and potassium absorption in distal colon, G54

Carbon monoxide

- and biliary transport, in rat liver, G1268

Cardiac output

- acute liver injury and, G617

Catalase

- and sphincter of Oddi motility, in opossum, G1050

Cationic channels

- muscarinic receptor-evoked, in single ileal smooth muscle cells, effects of protons on, G215

Cats

- lower esophageal sphincter, intracellular calcium stores, and experimental esophagitis, G1523

CCAT/enhancer binding protein

- effects on fetal intestinal differentiation, G534

C/EBP, see CCAT/enhancer binding protein**Ceramide**

- bombesin-stimulated production, and MAP kinase activation in intestinal smooth muscle, G1615

Charybdotoxin

- effects on spontaneous activity of guinea pig ileum longitudinal muscle, G962

Chest pain

- esophageal, age-related changes in, intraesophageal balloon distension studies, G1

Chickens

- rhythmic oscillating complexes in gastrointestinal tract of, and motilin, G916

Chloride/bicarbonate exchange

- in isolated pancreatic ducts, of guinea pig, G124

Chloride/bicarbonate exchanger

- in intrahepatic biliary tree, G1064

Chloride channels

- in bovine pancreatic duct epithelial cells, G1328
- glycine-gated, in Kupffer cells, G1581
- in pancreatic duct epithelial cells, characterization, G172

Chloride currents, see Chloride channels**Chloride ions**

- secretion, colonic, neural reflex pathways for, G238

Cholangiocytes

- apoptosis, development and application of in vitro model of, G106
- basolateral membranes, bile acid transport by, G1416
- heterogeneity, G1064
- in intrahepatic biliary ductal system, molecular and functional heterogeneity after bile duct ligation, G289
- sodium-dependent glucose transporter in, in rats, G1168

Cholecystokinin

- actions
 - in cholelithiasis, intracellular pathways for, G838
 - and pancreatic secretion, in dogs, G1550
 - in sphincter of Oddi ganglia, G1365
- activation of phospholipase C- β isoenzymes, in rat pancreatic acinar membranes, G135
- activation of p90^{rk}, in rat pancreatic acini, G401

- disruption of migrating myoelectric complex, vagal afferent fibers and, G100
- effects
- on gastric acid secretion, before and after vagotomy, in dogs, G1236
 - on pancreatic microcirculation, G310
- gallbladder responsiveness to, mechanisms of, G770
- regulation of monitor peptide mRNA expression in pancreatic acinar cells, G794
- Cholecystokinin receptors**
- see also **Gastrin/CCK-B receptors**
- CCK-A, in sphincter of Oddi, activation by cholecystokinin, G1365
 - cellular handling of, G488
 - immunolocalization of, G488
 - vagal, G100
- Cholelithiasis**
- cholecystokinin actions in, intracellular pathways for, G838
 - pathophysiology of, G770
- Cholestasis**
- hepatocyte Bcl-2 expression in, G1587
 - hypothalamic nitric oxide synthase in, in rats, G1034
 - liver injury in, G1109
- Cholesterol**
- biliary, quantitation by mass isotope-pomer distribution analysis, G367
 - plasma, quantitation by mass isotope-pomer distribution analysis, G367
 - synthesis, quantitation by mass isotope-pomer distribution analysis, G367
- Cholinergic nerves**
- control of mouse small intestinal longitudinal muscle, IL-4 and, G1135
 - excitatory, in anorectal smooth muscle, G1075
- Chymotrypsin**
- secretion, trypsin inhibitor complexes and, G340
- Circulation**
- see also **Blood flow**
- mesenteric, nitric oxide and, G612
 - systemic, acute liver injury and, G617
- Citrulline**
- synthesis of, in enterocytes of postnatal pigs, G1382
- c-Jun**
- gene expression, in intestinal cells, stimulation by glutamine, G943
- cMOAT, see Canalicular multispecific organic anion transporter**
- Colitis**
- experimental
 - anaerobic bacteria in, G10
 - neural mechanisms in, G272 - stress-induced enhancement, in rats, G84
- Collagen**
- in hepatic fibrogenesis induced by chronic dietary iron overload, G116
- Colon**
- electrolyte transport in, regulation of, G1338
 - flora, gas production, G1028
 - folate transport in, G1408
 - gas production, physiology, G1028
 - hydrogen and potassium ion fluxes across, G54
 - hypoxia-induced damage in, in newborn, G760
 - mechanosensory afferent input to superior mesenteric ganglion, in mice, G357
 - motility
 - in inflammation, effects of tachykinins on, G1607
 - somatostatin and, G689 - proximal
 - smooth muscle morphology and function, maintenance in organ culture, G669
 - sodium absorption in, in rabbits, G435 - secretory reflexes, substance P and, G238
 - smooth muscle
 - IGFBP and IGF-I receptor expression in, G482
 - somatostatin receptors in, G689 - surfactant-like particles in, isolation and characterization of, G425
- Colonic carcinoma cells**
- mucin secretion, protein kinase C- ϵ and, G31
- Copper ions**
- intracellular pools, in rat hepatocytes, characterization of, G1400
 - transport, intracellular, in rat hepatocytes, G1400
 - uptake, in rat hepatocytes, G1400
- Corticotropin-releasing factor**
- and experimental colitis, studies in rats, G84
- Cortisol**
- in regulation of arginine and glutamine metabolism in enterocytes, G474
- CP 96,345**
- injection into dorsal vagal complex, gastric acid response to, G987
- CRIP, see Cysteine-rich intestinal protein**
- Cryptdin**
- gene expression, in developing mouse small intestine, G197
- Cynomys ludovicianus, see Prairie dogs**
- Cysteine protease P-32**
- in cholangiocyte apoptosis induced by beauvericin, G106
- Cysteine-rich intestinal protein**
- immunohistochemical localization, in rat small intestine, G751
- Cystic fibrosis**
- mouse model, colonic sodium absorption in, G393
 - pancreatic pathology in, G172
- Cystic fibrosis transmembrane conductance regulator**
- and colonic sodium absorption, G393
 - in duodenal epithelial bicarbonate secretion, G872
 - gene expression
 - in pancreatic cells, G1328
 - selective, in transport biliary epithelia, G289 - in pancreatic duct epithelial cells, characterization, G172
- Cytokines**
- gene expression, by hepatic macrophages, role of iron in, G1355
 - in hepatic inflammation, G207
 - hepatic injury induced by, mechanisms of, G727
 - in inflammatory bowel disease, and electrolyte transport in distal colon, G1338
 - in intestinal epithelial cells
 - and inducible nitric oxide synthase gene regulation, G1499
 - regulation of fibroblast growth factor receptor 3 IIb, G885 - proinflammatory, and surgery in patients with obstructive cholestasis, G1034

D

Deferoxamine

- effects on nitric oxide-induced hyperpermeability in intestinal epithelial cells, G923

Deglutition, see Swallowing**Denervation**

- of external anal sphincter
- fecal incontinence with, G698
- myosin isoform shift with, G698

Development

- gastric myoelectrical activity and, G1022

Diabetes mellitus

- and poor early growth, association between, G1083
- rat model

 - gastric smooth muscle in, electrophysiological properties, G77

- impaired canalicular glutathione transport in, G374

Diamsar

- and intracellular copper transport, in rat hepatocytes, G1400

Diarrhea

- secretory, zinc supplementation and, G972

Diet

- protein-deficient, nitrogen salvage by liver and, G257

Digestion

- gastric phase, gastric acid secretion during, effects of hyperglycemia on, G1116
- regulation of, in humans, G632

Dimethylsulfide

- in flatus, G1028

Dogs

- awake, gastric emptying in, measurement of, G909
- candidate enterogastrones in, G1236
- gastric acid secretion in

 - before and after vagotomy, CCK and, G1236
 - inhibition by somatostatin, G1481

- isolated jejunum ex vivo, motilin release, G4
- pancreatic secretion in, cholecystokinin and, G1550
- proximal colon, smooth muscle cell morphology and function, maintenance in culture, G669

Duodenum

- acid neutralization, vagus nerve and, G154
- autonomic nervous system and, motilin as biosignal between, G224
- bicarbonate secretion, PACAPs and, G646
- enzyme levels in, and pancreatic enzyme secretion, G340

Dysphagia

in elderly, effect of exercise on, G1518

E**Early response genes, see Immediate early genes****Eicosanoids**

release, in response to intestinal anaerobic bacteria, G10

Eisai hyperbilirubinemic rat

canalicular multispecific organic anion transporter defective in, molecular cloning, G16

Electrogastrography

findings in human subjects of different ages, G1022

Electrolyte transport

in distal colon, regulation of, G1338
in intestinal cells, effect of chronic inflammation on, G732

Electrophysiology

of bovine pancreatic duct epithelial cells, G1328
of colonic secretory reflexes, G238
of cultured hepatic stellate cells, in rats, G742
of gastric smooth muscle, in diabetic rats, G77
of prevertebral ganglia, in mice, G357
of single ileal smooth muscle cells, G215

EM523

in measurement of gastric emptying in conscious dogs, G909

Endothelial cells

hepatic, ET-1 production by, G605

Endothelins

ET-1, production, by hepatic endothelial cells, G605
antagonist, cyclopentapeptide, hepatobiliary transport of, G979
effects on enteric glia from neonatal guinea pig, G1175

Endothelium

T cell migration across, in rat small intestine, G92

Endotoxin

effects
on ET-1 production by hepatic endothelial cells, G605
on Kupffer cells, G1581
hepatic injury induced by, neutrophil-mediated, G1195
induction of manganese superoxide dismutase, in rat colonic smooth muscle cells, G1230
plasma levels, and alcohol-induced liver injury, in female rats, G1186

Enteric nervous system

endothelin-evoked calcium signaling, in neonatal guinea pig, G1175
in experimental colitis, G272
and gastric emptying of liquids, G902
inhibitory nerves, endogenous adenosine and, G38
PGE₂ and, in guinea pigs, G1451

Enterocytes

see also **Intestinal cells**

amino acid metabolism in, in cortisol-treated pigs, G474
glucose metabolism, in newborn pigs, G1530
mitogen-activated protein kinases, activation by glutamine, G943

proliferation, stimulation by glutamine, G943
proline metabolism in, in neonatal pigs, G1382

Enterogastrones

candidate, in dogs, G1236

Enzyme activity, see Antioxidants**Epidermal growth factor**

activation of phospholipase C- γ_1 in pancreatic acinar membranes, G1276
glutamine and, additive effect in intestinal cells, G943

Epithelial cells

bile duct, heterogeneity, after bile duct ligation, G289
biliary, bile acid transport by basolateral membranes in, G1416
bovine pancreatic duct, isolation and culture of, G1328
IEC-6, TGF- β gene expression during migration, polyamines and, G713
intestinal

see also **Intestinal cells, Caco-2**
apolipoprotein secretion and lipid synthesis, in newborn swine, G935
axon reflex activation of, G238
inducible nitric oxide synthase gene expression in, G1499
monolayers, permeability
acidosis-induced increases in, G1007
effects of nitric oxide and extracellular pH, G923
protective effect of glutamine in, role of inducible HSP70, G879
regulation of fibroblast growth factor receptor 3 IIb in, G885

ion pumps in
composition and distribution of, G1304
sorting signal for, G1304
targeting, G1304
jejunal, glucose metabolism in, G575
migration, TGF- β gene expression during, polyamines and, G713
pancreatic duct
CFTR in, G172
distinct chloride channels in, characterization, G172
precursors, in normal and transgenic mice, G1209
T84, functional IL-15 receptors on, G1201

Epithelium

function, in parenterally fed rats, G1100
gastric, morphogenesis, in normal and transgenic mice, G1209
ileal, inducible nitric oxide synthase in, G383
intestinal, transepithelial resistance, G1201
jejunal, glucose metabolism in, G575
pancreatic duct, monolayer culture of, G1328

Erythromycin

binding, to central motilin receptors, G994
gastrokinetic effects, G71

Esophagitis

experimental, and intracellular calcium stores in lower esophageal sphincter, in cats, G1523

Esophagus

bolus transport, effect of pharyngeal water stimulation on, G265

motor function, cranial nerve modulation of, G802
pain threshold, graded intraesophageal balloon distension studies, G1
peristalsis, effect of pharyngeal water stimulation on, G265
smooth muscle from, cholinergic activity of, G1321
upper esophageal sphincter function during swallowing, G1057

Ethanol

gastric mucosal damage due to enzymes involved in, G1151
pathogenesis of, G809
protection against, G1151
hepatic injury due to, susceptibility to, in female rats, G1186

Exercise

effect on deglutitive upper esophageal sphincter opening, in elderly, G1518

Extracellular signal-related kinase, see Mitogen-activated protein kinases**Ezrin**

distribution, effects of ME-3407 on, G1122
phosphorylation, and HCl secretion in gastric parietal cells, G246

F**Fat-storing cells**

hepatic, *see* **Liver, stellate cells**

Fatty acids

regulation of apolipoprotein secretion and lipid synthesis, in intestinal epithelial cells of newborn swine, G935
short-chain
effect on paracellular permeability of Caco-2 intestinal cells, G705
ileal tonic and phasic motility responses to, in healthy humans, G147

Feeding

effects on mesenteric vascular tone, in piglets, G612

Fibroblast growth factor receptor

FGFR3 IIb, in intestinal epithelial cells, regulation of, G885

Flatus

composition, G1028

Flora, see Bacteria**Fluorescein isothiocyanate albumin**

for measurement of pulmonary vascular permeability, in rats, G23

Folate

transport, in human colon, G1408

Folate transporter

in human colon, kinetic characteristics of, G1408

Food hypersensitivity

intestinal Fos immunohistochemistry in, G181

Fructose

dietary, GLUT-5 induction by, in weaning rats, G446
intestinal transport of, in weaning rats, G446

G**Gallbladder**

contraction, intracellular pathways for, G838

- function, actions of cholecystokinin in, G1365
- motility, nitric oxide and, in prairie dogs, G770
- muscle, PACAP receptors on, in guinea pigs, G1433
- neurons, depolarization, by cholecystokinin, G1365
- Gamma-glutamyl transpeptidase**
activity, in diabetic rats, G374
- Gap junctions**
in hepatic stellate cells, G742
- Gas**
intestinal, *see* **Flatus**
- Gastric**, *see* **Stomach**
- Gastric acid secretion**, *see* **Stomach, acid secretion**
- Gastric inhibitory peptide**
effects on gastric acid secretion, before and after vagotomy, in dogs, G1236
- Gastrin**
in gastric acid secretion, in male anesthetized rats, G335
regulation of histidine decarboxylase, G822
release, meal-stimulated, effects of hyperglycemia on, G1116
secretion, β_3 -adrenoceptor and, in rat antrum, G1000
- Gastrin/CCK-B receptors**
and meal-stimulated acid secretion in rats, G1243
- Gastroesophageal junction**
smooth muscle from, cholinergic activity of, G1321
- Gastroesophageal reflux**
pharyngeal water stimulation and, G233
- Gastrointestinal motility**
see also **Peristalsis**
antroduodenal, motilin and, in humans, G71
capsaicin-sensitive vagal afferent fibers and, G100
and central nitric oxide synthase inhibition, G417
colonic
in inflammation, effects of tachykinins on, G1607
somatostatin and, G689
ileal, regulation of, in healthy humans, G147
interdigestive, in humans, G71
in nematode-infected mice, G321, G1135
postprandial, regulation of, in humans, G632
reactive oxygen species and, G1439
regulation, studies in isolated canine jejunum *ex vivo*, G4
thyrotropin-releasing hormone and, G1372
- Gastrointestinal tract**
development of, effects of IGF-I and IGF-I peptides on, G522
lung damage-induced, G845
mucosal epithelial layer, inducible nitric oxide synthase in, G383
PGE receptor subtypes in, cellular localization of, G681
rhythmic oscillating complexes in, and motilin, G916
- Gastrointestinal transit**
lactation and, in rats, G626
- Gastroparesis**
diabetes-induced, studies in rats, G77
- Gastropathy**
ethanol-induced, pathogenesis of, G809
- Gastroprotection**
by human spasmolytic polypeptide, G1473
- Gender differences**
in susceptibility to alcohol-induced liver injury, in rats, G1186
- Gene expression**
see also **Immediate-early genes**
Bcl-2, in hepatocytes, in cholestasis, G1587
c-fos, inhibition by somatostatin, molecular mechanisms for, G721
c-jun, in intestinal cells, stimulation by glutamine, G943
chloride/bicarbonate exchanger, in intrahepatic biliary tree, G1064
cryptdin, in developing mouse small intestine, G197
cystic fibrosis transmembrane conductance regulator, in pancreatic cells, G1328
cytokine, by hepatic macrophages, role of iron in, G1355
inducible nitric oxide synthase, regulation, in intestinal epithelial cells, G1499
insulin-like growth factor binding protein, effects of IGF-I and IGF-I peptides on, in rats, G522
liver enzyme, in offspring of protein-restricted rat dams, G1083
monitor peptide, in pancreatic acinar cells, regulation by cholecystokinin, G794
parotid secretory protein, in murine lacrimal glands, G863
secretin receptor, in intrahepatic biliary tree, G1064
selective, in transport biliary epithelia, G289
spasmolytic polypeptide, in TGF- α knockout mouse, after gastric ulceration, G1540
TGF- β , during cell migration, polyamines and, G713
tissue transglutaminase, in liver injury, regulation by NF- κ B, G281
trefoil peptides, in TGF- α knockout mouse, after gastric ulceration, G1540
uroguanylin, zinc restriction and, in rats, G972
- Glial cells**
enteric, from neonatal guinea pig, endo-thelin-evoked calcium signaling in, G1175
- Glucagonlike peptides**
GLP-1, effects on gastric acid secretion, before and after vagotomy, in dogs, G1236
GLP-2, intestinotrophic properties of, G662
- Glucocorticoids**
effects on mitochondrial matrix acyl-CoA dehydrogenases and fatty acid β -oxidation, G1141
- Glucokinase**
in offspring of protein-restricted rat dams, G1083
- Glucose**
metabolism
intestinal, in newborn pigs, G1530
in jejunal epithelium, G575
- Glucose transporters**
GLUT-1, in normal rat cholangiocytes, G1168
GLUT-2, and intestinal glucose metabolism in newborn pigs, G1530
GLUT-5, expression, in weaning rats, G446
sodium-dependent, in cholangiocytes, of rats, G1168
- Glutamate**
and hepatic nitrogen salvage, G257
release, central regulation, in rats, G654
- Glutamine**
and hepatic nitrogen salvage, G257
metabolism, in enterocytes of cortisol-treated pigs, G474
protective effect in intestinal epithelial cells, role of inducible HSP70, G879
stimulation of intestinal cell proliferation, G943
- Glutathione**
biliary, in diabetic rats, G374
canalicular transport, impairment, in diabetic rats, G374
redox cycle, in rat small intestine, G328
- Glycerol**
transport, in perfused rat liver, G563
- Glycine**
effects on intracellular calcium, in endotoxin-stimulated Kupffer cells, G1581
- Glycochenodeoxycholic acid**
ileal tonic and phasic motility responses to, in healthy humans, G147
- Glycogen**
metabolism, in rats, G1091
- Glycogenolysis**
in rat hepatocytes, G1091
- G proteins**
in activation of phospholipase C- γ_1 in pancreatic acinar membranes, G1276
and central motilin receptors, G994
G α_{11} , in CCK, carbachol, and bombesin effects in rat pancreatic acinar membranes, G135
and somatostatin effects on colonic motility, G689
- Grabbing effect**
in swallowing, G1057
- Growth hormone**
anabolic effects, G1100
effects on serum IGF-I levels, G1100
and mucosal atrophy in parenterally fed rats, G1100
- Guanosine 3',5'-cyclic monophosphate**
in biliary transport, in perfused rat liver, G1268
- Guanylate cyclase**
GC-C, activity, G972
and intestinal vascular responsiveness to norepinephrine in portal hypertension, G831
- Guinea pigs**
gallbladder muscle, PACAP receptors on, G1433
gastric mucus, proton transport in, G63

Guinea pigs (*continued*)**ileum**

- longitudinal muscle, spontaneous contraction, calcium-activated potassium channels and, G962
- myenteric neurons in, PGE₂ and, G1451
- neonatal, enteric glia from, endothelin-evoked calcium signaling in, G1175
- neuroimmunomodulation in, G1451
- pancreatic ducts
 - chloride/bicarbonate exchange in, G124
 - intracellular pH regulation in, G124
- sphincter of Oddi neurons, actions of cholecystokinin in, G1365

H**Heat shock proteins**

- HSP70, and intestinal epithelial protective effect of glutamine, G879

Heme oxygenase

- in hepatocytes, and biliary transport, G1268

Hemochromatosis

- hereditary, animal model, hepatic fibrogenesis in, vitamin E and, G116

Hemodynamics

- of acute liver injury, G617

Hepatobiliary transport

- carbon monoxide and, in rats, G1268
- of cyclopentapeptide, in rats, G979
- molecular aspects of, G1285

Hepatocytes

- bile salt-induced apoptosis, protein kinase C activation in, G1109
- bile salt traffic in, G298
- and neutrophils, interactions of, CD18 integrin-mediated, G408
- nitric oxide synthase induction in, regulation by protein tyrosine kinase, G207
- pH, regulation, after cold hypoxia and rewarming, G638
- proliferation, prostaglandins and, G597
- rat
 - Bcl-2 expression in cholestasis, G1587
 - intracellular calcium in, insulin and, G1425
 - intracellular copper pools, characterization of, G1400
 - intracellular pH and hormone-induced calcium oscillations in, G954
 - sphingosine 1-phosphate signaling in, G1091
 - signal transduction, ATP-MgCl₂ and, after hemorrhagic shock, G1347

Hepatopulmonary syndrome

- rat model of, G779

Hexokinase

- activity, in neonatal intestine, G1530

Histidine decarboxylase

- regulation, by gastrin, G822

Host defense

- cysteine-rich intestinal protein in, G751

Hydrogen ions

- see also* pH

- secretion, colonic, G54

Hydrogen-potassium ATPase

- colonic, structural and functional characteristics, G54
- in epithelial cells, sorting, stabilization, and polarity of, G1304

- in gastric parietal cells, redistribution in response to stimulation, G161
- redistribution, inhibition by ME-3407, effects on gastric acid secretion, G1122

Hydrogen sulfide

- in flatus, G1028

Hydroperoxide

- metabolism, in hypoxic small intestine, in rats, G328

5-Hydroxytryptamine receptors

- see also* Serotonin receptors

- 5-HT₃, and motilin biosignaling, G224

Hyperaldosteronism

- and potassium absorption in distal colon, G54

Hyperbilirubinemia

- in Eisai hyperbilirubinemic rat, pathogenesis, G16

Hypercarbia

- and intestinal epithelial permeability, G1007

Hyperemia

- postprandial, nitric oxide and, in piglets, G612

Hyperglycemia

- effects on gastric acid secretion, G1116

Hypothalamus

- nitric oxide synthase in, in cholestatic rats, G1034

Hypoxia

- in rat small intestine, G328

I**Ileitis**

- chronic, effects on electrolyte transport in intestinal cells, G732

Ileum

- altered smooth muscle function in inflammation, G1258
- circular muscle, altered contractility in inflammation, G1258
- epithelium, inducible nitric oxide synthase in, G383
- longitudinal muscle
 - altered contractility in inflammation, G1258
 - spontaneous contraction, calcium-activated potassium channels and, in guinea pigs, G962
- motility, regulation, in healthy humans, G147
- tone
 - effects of xenin on, apamin-type neurotensin receptors and, G190
 - local regulation, in healthy humans, G147

Immediate early genes

- c-fos*

- expression, and histidine decarboxylase promoter, G822
- inhibition by somatostatin, molecular mechanisms for, G721
- in myenteric plexus, expression in intestinal anaphylaxis, G181
- c-jun*, expression, and histidine decarboxylase promoter, G822

Immune system

- cysteine-rich intestinal protein in, G751

Immunocytochemistry

- of antioxidant enzymes in sphincter of Oddi, in opossum, G1050

Indomethacin

- intestinal inflammation induced by, bile acids and, G1249

Inflammation

- and cholinergic control of mouse small intestinal longitudinal muscle, G1135
- chronic, effects on electrolyte transport in intestinal cells, G732
- colonic, electrolyte transport and, G1338
- colonic motility in, effects of tachykinins on, G1607
- in endotoxin-induced liver injury, G1195
- hepatic, and alcohol-induced liver injury, in female rats, G1186
- hepatic injury induced by, mechanisms of, G727
- intestinal
 - altered smooth muscle function in, G1258
 - anaerobic bacteria in, G10
 - bile acids and, G1249
 - in nematode-infected mice, and intestinal muscle contractility, G321, G1135
 - neurogenic, in digestive tract, in mouse, G785
 - viscerosensitive responses to, CGRP-induced tachykinin release in, in rats, G141

Inflammatory bowel disease

- pathophysiology of, G1338
- and stress, studies in rats, G84

In situ hybridization

- of mRNAs for PGE receptor subtypes in mouse gastrointestinal tract, G681
- of reptilian NHE-1, G1594

Inositol trisphosphate

- and altered hepatocyte signal transduction after hemorrhagic shock, ATP-MgCl₂ and, G1347

Insulin

- activation of mitogen-activated protein kinase, mechanisms of, G1425
- effects on intracellular calcium in hepatocytes, G1425

Insulin-like growth factor binding proteins

- expression
 - in cultured colonic smooth muscle cells, G482
 - effects of IGF-I and IGF-II peptides on, in rats, G522

Insulin-like growth factor receptors

- IGF-I, expression, in cultured colonic smooth muscle cells, G482

Insulin-like growth factors

- IGF-I
 - anabolic effects, G1100
 - effect on organ growth and gut development, G522
 - glutamine and, additive effect in intestinal cells, G943
 - peptides, effect on organ growth and gut development, G522
 - serum levels, growth hormone and, G1100

Intercellular adhesion molecule-1

- and alcohol-induced liver injury, in female rats, G1186

Interferons

- INF- γ , and inducible nitric oxide synthase gene regulation, in intestinal epithelial cells, G1499

**Interleukin-1 β -converting enzyme/
CED-3 homologue-1**

and cholangiocyte apoptosis induced by
beauvericin, G106

Interleukin receptors

IL-15, on T84 colonic epithelial cells,
G1201

Interleukins**IL-1 β**

in hepatic inflammation, G207
and inducible nitric oxide synthase
gene regulation, in intestinal epi-
thelial cells, G1499
induction of manganese superoxide
dismutase, in rat colonic smooth
muscle cells, G1230
and phospholipase A₂-activating pro-
tein synthesis, G1338

IL-2

functions, G1201
hepatic injury induced by, mecha-
nisms of, G727

IL-4, neuromodulatory effects, G1135**IL-6, gene expression, by hepatic macro-
phages, role of iron in, G1355****IL-11, protective effects in ischemic
bowel necrosis, in mice, G545****IL-15, functions, G1201****Intestinal cells**

see also **Enterocytes**

Caco-2

barrier function, effect of butyrate on,
G705

monolayers, nitric oxide-induced hy-
perpermeability, G923

Caco-2BBE, monolayers, permeability,
acidosis-induced increases in,
G1007

differentiation status, and paracellular
permeability, G705

electrolyte transport in, effects of
chronic inflammation on, G732

fibroblast growth factor receptor 3 IIIb
in, regulation of, G885

IEC-6, c-Jun mRNA levels, stimulation
by glutamine, G943

IPEC-1, apolipoprotein secretion and
lipid synthesis, G935

IPEC-J2, c-Jun mRNA levels, stimula-
tion by glutamine, G943

proliferation, stimulation by glutamine,
G943

protective effect of glutamine in, role of
inducible HSP70, G879

Intestine

amino acid transporter B⁰ in, molecular
and functional characterization of,
G1463

brush-border membrane, *see* **Brush-
border membrane**

gas in, *see* **Flatus**

GLP-2 bioactivity in, G662

glucose metabolism in, in newborn pigs,
G1530

inflammation, bile acids and, G1249

longitudinal muscle
cholinergic neural control of, IL-4
and, G1135

spontaneous contraction, calcium-
activated potassium channels and,
in guinea pigs, G962

in nematode-infected mice, muscle con-
traction and worm expulsion in,
G321, G1135

postprandial motor responses, regula-
tion of, in humans, G632

sodium-dependent nucleoside transport
in, in humans, G1314

Intestine, large

- gastric, developmental change in humans, G1022
- sphincter of Oddi, antioxidant enzymes and, in opossum, G1050

Motion sickness

- plasma vasopressin in, G853

Mucin

- gastric, human spasmolytic polypeptide and, interaction of, G1473
- secretion, in human colonic cells, protein kinase C- ϵ and, G31

Mucosa

- atrophy, in parenterally fed rats, growth hormone and, G1100
- gastric
 - aspartic proteases in, G1151
 - ethanol-induced damage, G1151
 - nitric oxide overproduction, in uremia, G894
 - proton buffering, G63
- gastrointestinal, injury, protective effects of IL-11 and, G545
- ileal, inducible nitric oxide synthase expression in, G383

Mucus

- gastric
 - proton permeation through, human spasmolytic polypeptide and, G1473
 - proton transport in, in guinea pig, G63

Multidrug resistance protein

in hepatobiliary transport, G1285

Muscarinic receptors

cationic current, effects of protons on, in single visceral smooth muscle cells, G215

and motilin biosignaling, G224

Muscle, smooth

from canine proximal colon, cell morphology and function, maintenance in culture, G669

colonic

hypertrophy of, G1560

IGFBP and IGF-I receptor expression by, G482

in megacolon, G1560, G1571

somatostatin receptors in, G689

gastric

electrical responses in diabetic rat, G77

PACAP receptors in, signaling by, in rabbits, G1391

somatostatin receptors in, G689

from human gastroesophageal junction, cholinergic activity of, G1321

ileal, altered function in inflammation, G1258

of internal anal sphincter, transmural field stimulation of, G1075

intestinal

calcium balance in, oxygen-derived free radicals and, G1439

cholinergic neural control of, IL-4 and, G1135

contractility

calcium-activated potassium channels and, in guinea pigs, G962

in nematode-infected mice, G321, G1135

electrical activities, G1159

giant migrating contractions, substance P and, G1607

manganese superoxide dismutase regulation in, study in rat colonic cells, G1230

MAP kinase activation in, ceramide and, G1615

rectal, transmural field stimulation of, G1075

relaxation, xenin and, G190

visceral, isolated cells, muscarinic receptor-evoked cationic current, effects of protons on, G215

Myeloperoxidase

as indicator of neutrophil sequestration in pancreatitis-associated lung injury, in rats, G23

Myenteric plexus

endogenous adenosine in, G38

Fos immunoreactivity in, induced by intestinal anaphylaxis, G181

PGE₂ and, in guinea pigs, G1451

purinergic calcium signaling in, G463

Myosin

in colonic smooth muscle, in megacolon, G1560, G1571

isoform shift, in denervated cat external anal sphincter, G698

Myosin light chain

phosphorylation, in colonic smooth muscle, in megacolon, G1571

Myosin light chain kinase

inhibition by ME-3407, effects on gastric acid secretion, G1122

N**Nausea**

in motion sickness, G853

Necrotizing enterocolitis

murine model, protective effects of IL-11 and, G545

neonatal, pathophysiology of, G760

Nematodes

parasitic, infection, intestinal muscle contraction and worm expulsion in, G321, G1135

Neuroimmunomodulation

in guinea pigs, G1451

Neurokinin receptors

NK₁, on colonocytes, G238

and colonic motility, G1607

in viscerosensitive responses to acute inflammation, G141

Neurotensin

effects on gastric acid secretion, before and after vagotomy, in dogs, G1236

Neurotensin receptors

apamin-type, and relaxant effect of xenin on rat ileum, G190

Neutrophils

CD11b/c expression, in secretagogue-induced pancreatitis, in rats, G23

in endotoxin-induced liver injury, G1195

extravasation, and endotoxin-induced liver injury, G1195

and hepatocytes, interactions of, CD18 integrin-mediated, G408

in lung-gut injury, G845

margination, and endotoxin-induced liver injury, G1195

sequestration in pancreatitis-associated lung injury, effects of PGE₁ on, in rats, G23

Newborn

enterocytes

glucose metabolism in, G1530

proline metabolism in, G1382

hypoxia-induced colonic damage in, G760

Nicotinic receptors

and motilin biosignaling, G224

Nitric oxide

in anorectal smooth muscle neurotransmission, G1075

effects on sphincter of Oddi contractile activity, G1050

and gallbladder motility, in prairie dogs, G770

in hypoxia-induced colonic damage in neonatal rats, G760

and intestinal epithelial permeability, effects of extracellular pH, G923

and lung-gut injury, G845

and mesenteric perfusion, G612

overproduction, in uremia, G894

synthesis, by Kupffer cells, after trauma, G1457

Nitric oxide synthase

activity, in uremic rats, G894

hypothalamic, in cholestatic rats, G1034

inducible

constitutive expression in mouse ileal mucosa, G383

gene regulation, in intestinal epithelial cells, G1499

induction, regulation by protein tyrosine kinase, in rat hepatocytes, G207

inhibition

central, modulation of gastrointestinal motility, G417

vasodilator potentiation by, G507

Nitrogen

balance, in protein deficiency, G257

excretion, fermentable carbohydrate and, in rats, G515

salvage by liver, in protein deficiency, G257

N^ω-Nitro-L-arginine

in measurement of gastric emptying in conscious dogs, G909

Nonadrenergic noncholinergic nerves

inhibitory, in anorectal smooth muscle, G1075

Nonelectrolyte transport

phloretin sensitivity of, studied in perfused rat liver, G563

Norepinephrine

intestinal vascular responsiveness to, in portal hypertension, G831

Nuclear factor

NF-κB

activation, role of iron in, G1355

in regulation of tissue transglutaminase gene expression, G281

Nucleoside transporters

in human intestinal brush-border membrane, G1314

Nucleus of solitary tract

commissural portion, synaptic connection with dorsal motor nucleus of vagus, in rats, G654

O**Organic anion transporter**

in hepatobiliary transport, G1285

multispecific, canalicular, in rats, G979

Organ preservation

hepatic cold storage and rewarming for, pH regulation during, G638

visceral, see **Visceral pain**

Pancreas

acinar cells, see **Acinar cells, pancreatic**

enzyme secretion, trypsin inhibitors and, G340

Pancreas (continued)

- exocrine secretion
 - cultured dog pancreatic duct epithelial cells as model for, G172
 - TRH-induced vagal efferent nerve excitation in, G351
- intracellular pH regulation in pancreatic ducts, studies in guinea pig, G124
- microcirculation, effects of sodium taurocholate, cholecystokinin, and secretin on, G310
- postprandial motor responses, regulation of, in humans, G632

Pancreatic duct

- epithelium, monolayer culture of, G1328

Pancreatic polypeptide

- radioimmunoassay for, G224
- release, motilin and, G224
- secretion, effects of hyperglycemia on, G1116

Pancreatitis

- biliary acute, rat model for, G310
- caerulein-induced, lung injury in, and protective effect of PGE₁, in rats, G23

Paneth cells

- cysteine-rich intestinal protein in, immunohistochemical localization of, G751

Parietal cells

- see also* **Stomach, parietal cells**
- in normal and transgenic mice, G1209
- stimulation, membrane recruitment events, effects of ME-3407 on, G1122

Parotid secretory protein

- as bacteria binding protein in exocrine secretions, G863
- expression, in murine lacrimal glands, G863

Pentagastrin

- gastric acid response to, substance P in dorsal vagal complex and, G987

Pepsin

- and buffering properties of gastric mucus, G63

Pepsinogen

- and buffering properties of gastric mucus, G63

Peptic ulcer disease

- treatment, ME-3407 for, mechanism of action, G1122

Peptide YY

- effects on gastric acid secretion, before and after vagotomy, in dogs, G1236

Peristalsis

- esophageal, effect of pharyngeal water stimulation on, G265

Permeability

- intestinal
 - in lung-gut injury, G845
 - in rodents, G498
- paracellular
 - of Caco-2 intestinal cells differentiation status and, G705
 - effect of butyrate on, G705
 - in intestinal absorption of sodium dodecyl sulfate, G498

Peroxyinitrite

- and nitric oxide-induced intestinal epithelial permeability, G923

Peyer's patches

- lymphocyte migration in, vasoactive intestinal peptide and, in rat small intestine, G92

pH

- see also* **Acidosis**
- intracellular
 - in hepatocytes, regulation, after cold hypoxia and rewarming, G638
 - in rat hepatocytes, hormone-induced calcium oscillations and, G954
 - regulation in pancreatic ducts, G124
 - studies in guinea pig, G124
- and potassium absorption in distal colon, G54
- profiles, across gastric mucous layer, G63

Phagocytosis

- by Kupffer cells, after trauma, G1457

Pharyngeal sensation, *see* Pharyngeal water stimulation**Pharyngeal water stimulation**

- effects on esophageal peristalsis and bolus transport, G265
- and gastroesophageal reflux, G233

Pharyngoesophageal inhibition

- and swallowing, G265

Pharynx

- function in swallowing, G1057

Phenylephrine

- calcium oscillations induced by, in rat hepatocytes, intracellular pH and, G954

Phloretin sensitivity

- of nonelectrolyte transport, studied in perfused rat liver, G563

Phorbol ester

- effects on mucin secretion in colonic cell lines, protein kinase C- ϵ and, G31

Phorbol 12-myristate 13-acetate

- in hepatic inflammation, G207

Phosphoenolpyruvate carboxykinase

- in offspring of protein-restricted rat dams, G1083

Phospholipase A₂-activating protein

- synthesis in rabbit distal colon, IL-1 β and, G1338

Phospholipases

- PLC, activity, in rat hepatocytes, G1091
- PLC- β , isoenzymes, agonist-induced activation in pancreatic acinar membranes, G135
- PLC- γ_1
 - in pancreatic acinar membranes, activation by epidermal growth factor, G1276
 - tyrosine phosphorylation, and activation, G1276

Phospholipid

- secretion, by intestinal epithelial cells, in newborn swine, G935

Pigs

- cortisol-treated, enterocyte amino acid metabolism in, G474
- neonatal, enterocytes, proline metabolism in, G1382
- young, mesenteric vascular tone in, nitric oxide and, G612

Pituitary adenylate cyclase-activating peptide

- dual effects on guinea pig gallbladder muscle, G1433
- and duodenal bicarbonate secretion, G646

- in rat hindbrain, effects on gastric motor function, G1221

Pituitary adenylate cyclase-activating peptide receptors

- on gallbladder muscle, in guinea pigs, G1433

- in gastric muscle
 - characterization of, G1391
 - signaling by, G1391

PLAP, *see* Phospholipase A₂-activating protein**Plasma**

- cholesterol in, quantitation by mass isotopomer distribution analysis, G367

Plasma membrane

- basolateral, bile acid transport, in cholangiocytes, G1416

Polyamines

- and TGF- β gene expression, during epithelial cell migration, G713

Polymerase chain reaction

- of Paneth cell defensin mRNAs, in neonatal gut, G197
- reverse transcriptase, for rat hypothalamic nitric oxide synthase, G1034

Portal hypertension

- gastropathy with, TNF- α in, G809
- intestinal vascular responsiveness to norepinephrine in, G831

Potassium channels

- calcium-activated
 - and salivary fluid secretion in rats, G454
 - and spontaneous contraction of ileal longitudinal muscle, in guinea pigs, G962
- in hepatic stellate cells, G742

Potassium ions

- absorption, colonic, G54
- in cholangiocyte apoptosis induced by beauvericin, G106
- transport, colonic, G54

Prairie dogs

- gallbladder motility in, nitric oxide and, G770

Prolactin

- ovine, and ATP-dependent taurocholate transport in canalicular plasma membrane from rat liver, G46

Proline oxidase

- activity, in enterocytes of postnatal pigs, G1382

Prostaglandin receptors

- PGE, subtypes in gut, cellular localization of, G681
- PGE₂, EP₃ subtype, and hepatocyte proliferation, G597

Prostaglandins

- PGE₁, and pancreatitis-associated lung injury, in rats, G23
- PGE₂

- effects on myenteric neurons in guinea pig ileum, G1451
- synthesis of, by Kupffer cells, after trauma, G1457
- proliferative effects on hepatocytes, G597

Protease inhibitors

- endogenous, in rat stomach, G1151

Proteases

- in rat stomach, G1151

Protein, dietary

- deficiency, and nitrogen salvage by liver, G257

restriction, maternal, effects on hepatic enzymes in offspring, G1083

Protein kinases

PKA, and intestinal vascular responsiveness to norepinephrine in portal hypertension, G831

PKC

activation, in bile salt-induced apoptosis of hepatocytes, G1109
and cholecystokinin activation of p90^{rsk} in rat pancreatic acini, G401
and gallbladder contractility in cholelithiasis, G838
and intracellular contractile pathways in esophageal muscle, G1523
isoforms, in gastric parietal cells, and HCl secretion, G246
PKC- ϵ , and mucin exocytosis in human colonic cells, G31
extracellular signal-regulated, effect of somatostatin on, G721
90-kDa ribosomal S6 (p90^{rsk}), in rat pancreatic acini, G401

Protein tyrosine kinase

regulation of nitric oxide synthase induction, in rat hepatocytes, G207

Proton-ATPase

in pancreatic ducts, of guinea pig, G124

Proton-potassium ATPase, see Hydrogen-potassium ATPase

Protons

effects on muscarinic receptor-evoked cationic channels, in single ileal smooth muscle cells, G215

Pseudemys scripta, see Turtle

Purinergic receptors

in enteric nervous system, G38, G463

Pyrroline-5-carboxylate

synthesis of, in small intestine, G1382

Pyruvate

for transamination of glutamine amino nitrogen, in jejunal epithelial cells, G575

R

Rabbits

gastric muscle, PACAP receptors in, signaling by, G1391
rectosigmoid smooth muscle cells, MAP kinase activation in, ceramide and, G1615
sodium absorption in proximal colon, G435

Rats

see also **Eisai hyperbilirubinemic rat**

antrum, β_3 -adrenoceptor in, G1000
brain, presynaptic α_2 -adrenoceptors, in control of glutamate release, G654
cholangiocytes, sodium-dependent glucose transporter in, G1168
cholestatic, hypothalamic nitric oxide synthase in, G1034
colon, surfactant-like particles in, isolation and characterization of, G425
common bile duct ligation in, as model of hepatopulmonary syndrome, G779
female, alcohol-induced liver injury in, G1186
gastric acid secretion in, meal-stimulated, gastrin/CCK-B receptors and, G1243

gastric function, hindbrain control of, G1372

gastric motor function in, hindbrain PACAP and, G1221

gastrointestinal motility, thyrotropin-releasing hormone and, G1372

hepatic macrophages, cytokine gene expression by, role of iron in, G1355

hepatic stellate cells, electrophysiological characterization of, G742

hepatobiliary transport of cyclopentapeptide, G979

hepatocytes

intracellular copper pools, characterization of, G1400

intracellular pH and hormone-induced calcium oscillations in, G954

sphingosine 1-phosphate in, G1091

intestinal absorption of sodium dodecyl sulfate in, G498

Kupffer cell alterations after femur fracture in, G1457

lactating, gastric emptying and gastrointestinal transit in, G626

liver

apical membrane transporters, regulation, G1041

carbon monoxide and biliary transport in, G1268

maternal dietary protein restriction, effects on hepatic enzymes in offspring, G1083

neonatal, hypoxia-induced colonic damage in, role of nitric oxide in, G760

parenterally fed, mucosal atrophy in, G1100

salivary fluid secretion, cAMP modulation of, G454

small intestine

fetal, differentiation, and C/EBP, G534

immunohistochemical localization of cysteine-rich intestinal protein in, G751

stomach, proteases and protease inhibitors in, G1151

suckling, organ growth and gut development, IGF-I and, G522

zinc-deficient, uroguanylin expression in, G972

Reactive oxygen species

and calcium homeostasis, in cultured human intestinal smooth muscle cells, G1439

cytotoxicity, in cultured human intestinal smooth muscle cells, G1439

and gastrointestinal motility, G1439

Rectal gas, see Flatus

Rectum

see also **Anus**

innervation, G1075

Retinoic acid

signaling, in hepatic stellate cells, G589

Ro 31-8220

effects on HCl secretion in gastric parietal cells, G246

RX-77368

and gastric motor function, G1372

S

Salivary fluid

secretion, cAMP modulation of, in rats, G454

Salivary glands

nonimmune antimicrobial agent in, G863

Second messengers

and altered hepatocyte signal transduction after hemorrhagic shock, ATP-MgCl₂ and, G1347

in lower esophageal sphincter, and experimental esophagitis, in cats, G1523

Secretin

effects

on gastric acid secretion, before and after vagotomy, in dogs, G1236

on pancreas, studies in anesthetized pigs, G154

on pancreatic microcirculation, G310
and pH regulation in pancreatic ducts, G124

Secretin receptors

in intrahepatic biliary tree, G1064

Sensory afferents

visceral, age-related changes in, G1

Serotonin receptors

5-HT₁, antagonist, and gastric emptying of liquids, G902

SGLT-1, see Sodium-glucose cotransporter

Shock

hemorrhagic, altered hepatocyte signal transduction after, ATP-MgCl₂ and, G1347

Sialoadenitis

autoimmune, G863

Signal transduction

see also **Second messengers**

in enteric glia from neonatal guinea pig, G1175

in human colonic cell lines, G31

Small intestine, see Intestine, small

Sodium-bicarbonate cotransport

in isolated pancreatic ducts, of guinea pig, G124

in proximal colon of rabbits, G435

Sodium channels

amiloride-sensitive, G393

Sodium chloride

absorption, effects of chronic inflammation on, G732

Sodium dodecyl sulfate

intestinal absorption of, in rodents, G498

Sodium-glucose cotransporter

in normal rat cholangiocytes, G1168

Sodium/hydrogen antiporter (sodium/hydrogen exchanger)

NHE-1, epithelial localization, in reptiles, G1594

Sodium/hydrogen exchange

in isolated pancreatic ducts, of guinea pig, G124

in proximal colon of rabbits, G435

Sodium ions

colonic absorption of
in cystic fibrosis mice, G393
in rabbits, G435

Sodium-potassium ATPase

in cultured canine proximal colon smooth muscle cells, G669

in epithelial cells, sorting, stabilization, and polarity of, G1304

Sodium taurocholate

ATP-dependent transport, ovine prolactin and, in rat liver, G46

Sodium taurocholate (*continued*)

effects on pancreatic microcirculation, G310

Somatostatin

and colonic motility, G689

effects on gastric acid secretion, G1481
before and after vagotomy, in dogs, G1236

inhibition of *c-fos* gene expression, molecular mechanisms for, G721
intracerebroventricular administration, effects on vagal efferent nerve excitation by TRH, G351

secretion, β_3 -adrenoceptor and, in rat antrum, G1000

Somatostatin receptors

in gastric versus colonic smooth muscle, G689

type 2 (*sst*₂), in regulation of gastric acid release, G1481

Spasmolytic polypeptide

expression in TGF- α knockout mouse, after gastric ulceration, G1540

human, gastroprotective mechanism of, G1473

Sphincter of Oddi

motility, antioxidant enzymes and, in opossum, G1050

Sphingosine 1-phosphate

in hepatocytes, of rats, G1091

SR-48692

as neurotensin antagonist, and relaxant effects of xenin in rat ileum, G190

SR-59230A

effects on gastrin and somatostatin secretion in rat antrum, G1000

Stable isotope tracers

for glucose metabolism in jejunal epithelial cells, G575

for nucleoside transport in human intestinal brush-border membrane, G1314

Steatohepatitis

glucocorticoids and, in mice, G1141

Steatosis

alcohol-induced, in female rats, G1186
glucocorticoids and, in mice, G1141

Stomach

acid secretion

functional heterogeneity of parietal cells in, G161

hyperglycemia and, G1116

inhibition

gastrointestinal peptides and, in dogs, G1236

by ME-3407, G1122

by somatostatin, G1481

meal-stimulated, gastrin/CCK-B receptors and, in rats, G1243

medullary TRH-induced, modulation by substance P in dorsal vagal complex, G987

regulation, somatostatin in, G1236, G1481

role of vagus nerve and gastrin in, in rats, G335

antrum

β_3 -adrenoceptors, in rats, G1000

motilin motor effect on, neural mediation, G71

cardia, smooth muscle from, cholinergic activity of, G1321

development, in normal and transgenic mice, G1209

distension, and gastric acid secretion, in male anesthetized rats, G335

emptying

and central nitric oxide synthase inhibition, G417

inhibition in acute inflammation, neurokinin receptors and, G141

lactation and, in rats, G626

of liquids, sumatriptan and, G902

measurement, in conscious dogs, G909

epithelium, morphogenesis, in normal and transgenic mice, G1209

function, hindbrain control of, responsiveness to thyrotropin-releasing hormone, G1372

gastric glands, isolated, functional heterogeneity of parietal cells in, G161

motility, developmental change in humans, G1022

mucosa

aspartic proteases in, G1151

ethanol-induced damage, G1151

nitric oxide overproduction, in uremia, G894

protection, by human spasmolytic polypeptide, G1473

proton buffering, G63

mucus

as proton carrier and diffusion barrier, G63

proton permeation through, human spasmolytic polypeptide and, G1473

muscle cells, PACAP receptor signaling, in rabbits, G1391

myoelectrical activity, patterns, developmental change in humans, G1022

parietal cells

aging, and function, G161

functional heterogeneity of, along pit-gland axis, G161

HCl secretion, protein kinase C isoforms and, G246

proteases and protease inhibitors, in rats, G1151

slow wave dysrhythmias, in motion sickness, G853

smooth muscle, somatostatin receptors in, G689

Stress

and colitis, in rats, G84

Submucosal plexus

neural pathways, activation, tachykinins and, G238

Substance P

and colonic giant migrating contractions, G1607

and colonic secretory reflexes, G238

in dorsal vagal complex, inhibition of medullary TRH-induced gastric acid secretion, G987

in neurogenic inflammation of murine digestive tract, G785

release, from perfused myenteric ganglion networks, endogenous adenosine and, G38

Sulfur-containing gases

in flatus, G1028

Sumatriptan

and gastric emptying of liquids, in humans, G902

Superconducting quantum interference device (SQUID) magnetometer

detection of small bowel electrical activities, G1159

Superior mesenteric artery

potentiated dilation, by nitric oxide synthase blockade, G507

Superoxide

formation, by Kupffer cells, after trauma, G1457

Superoxide dismutase

manganese, regulation in rat colonic smooth muscle cells, G1230

and sphincter of Oddi motility, in opossum, G1050

Surfactant-like particles

in colon, isolation and characterization of, G425

Swallowing

cortical motor pathways for, cranial nerve modulation of, G802

disorders, *see* **Dysphagia**

grabbing effect in, G1057

pharyngeal function in, G1057

pharyngeal sensation and, G265

upper esophageal sphincter function during, G1057

Sympathetic nervous system

in experimental colitis, G272

System B⁰

molecular and functional characterization of, G1463

T**Tachykinin receptors**

in colonic motility, G1607

Tachykinins

and colonic secretory reflexes, G238

effects on colonic motility, in inflammation, G1607

in neurogenic inflammation of murine digestive tract, G785

in viscerosensitive responses to acute inflammation, CGRP and, in rats, G141

Taurochenodeoxycholic acid

and intestinal inflammation, G1249

Tauroursodeoxycholic acid

cytoprotective properties, G1249

Telenzepine

effects on pancreatic secretion, in dogs, G1550

12-O-Tetradecanoylphorbol 13-acetate

effects on HCl secretion in gastric parietal cells, G246

Thyrotropin-releasing hormone

and gastric motor function, G1372

medullary, effects on gastric acid secretion, modulation by substance P in dorsal vagal complex, G987

vagal efferent nerve excitation produced by, central somatostatin and, G351

Tissue transglutaminase

in hepatic fibrosis, G281

TNBS, *see* 2,4,6-Trinitrobenzenesulfonic acid**Total parenteral nutrition**

and mucosal atrophy, in rats, G1100

TPA, *see* **12-O-Tetradecanoylphorbol 13-acetate**

Transcription factors

Elk-1, activation by glutamine, in intestinal cells, G943

Transcytosis

in biliary secretion, G1041

Transforming growth factor

TGF- α

knockout mice, spasmolytic polypeptide expression after gastric ulceration, G1540

synthesis and storage in rat parotid acinar and intercalated duct cells, G553

TGF- β , gene expression during cell migration, polyamines and, G713

Transgenic mice

gastric epithelial morphogenesis in, G1209

Transmission electron microscopy

of TGF- α in rat parotid acinar and intercalated duct cells, G553

Trefoil peptides

expression in TGF- α knockout mouse, after gastric ulceration, G1540

Trichinella spiralis infection

in mice, intestinal muscle contractility and worm expulsion in, G321

Triglyceride

secretion, by intestinal epithelial cells, in newborn swine, G935

Triglycerides

ileal tonic and phasic motility responses to, in healthy humans, G147

Trinitrobenzenesulfonic acid

colitis caused by
anaerobic bacteria in, G10
stress-induced enhancement, studies in rats, G84
intestinal inflammation caused by, altered smooth muscle function in, G1258

Trypsin

secretion, trypsin inhibitor complexes and, G340

Trypsin inhibitors

free and complexed, effects on pancreatic enzyme secretion, G340

Tryptophan

enteropancreatic reflex activated by, in dogs, G1550

intraduodenal, pancreatic enzyme response to, in dogs, G1550

Tumor necrosis factor

TNF- α

induction of manganese superoxide dismutase, in rat colonic smooth muscle cells, G1230

in portal hypertensive gastropathy, G809

production by Kupffer cells after endotoxin injection, G1581
after trauma, G1457

gene expression, by hepatic macrophages, role of iron in, G1355
in hepatic inflammation, G207

Turtle

NHE-1 in, epithelial localization of, G1594

U

Ultrasound

of lower esophageal sphincter muscle, G1509

Upper esophageal sphincter

deglutitive opening, effect of exercise on, in elderly, G1518

Urea

digestive disposal of, fermentable carbohydrate and, in rats, G515

plasma levels, fermentable carbohydrate and, in rats, G515

transport, in perfused rat liver, G563

Uremia

nitric oxide overproduction in, G894

Uroguanylin

gene expression, zinc restriction and, in rats, G972

Ursodeoxycholic acid

cytoprotective properties, G1249
and intestinal inflammation, G1249

V

Vagotomy

and motilin biosignaling, G224

Vagovagal reflex

regulation of gastrointestinal function, G654

Vagus nerve

afferent fibers, in intestinal action of cholecystokinin, G100

dorsal motor nucleus

responsiveness to thyrotropin-releasing hormone, and gastrointestinal motility, G1372

synaptic connection with commissural portion of nucleus of solitary tract, in rats, G654

in duodenal acid neutralization, in anesthetized pigs, G154

efferent fibers, excitation by TRH, central somatostatin and, G351

electrical stimulation, effect on pancreaticobiliary and duodenal bicarbonate secretion, G154

in gastric acid secretion, in male anesthetized rats, G335

and pancreatic secretion, in dogs, G1550

Vasoactive intestinal peptide

and duodenal bicarbonate secretion, G646

and lymphocyte migration in Peyer's patches of rat small intestine, G92

in portal plasma, during electrical vagal stimulation in anesthetized pigs, G154

Vasoactive intestinal peptide receptors

VIP/PACAP

in gallbladder muscle, signaling by, G1433

in gastric muscle, signaling by, G1391

Vasodilation

potentiated by nitric oxide synthase blockade, organ specificity of, G507

Vasopressin

calcium oscillations induced by, in rat hepatocytes, intracellular pH and, G954

and experimental colitis, studies in rats, G84

plasma, in motion sickness, G853

Visceral pain

in acute inflammation, neurokinin receptors and, G141

Vitamin E

and hepatic fibrogenesis in chronic dietary iron overload, G116

Volume status

regulation, G1285

Vomiting

in motion sickness, G853

W

Water

pharyngeal stimulation, *see* **Pharyngeal water stimulation**

transport, in perfused rat liver, G563

Wortmannin

properties, comparison to properties of ME-3407, G1122

X

Xanthine oxidase

in hepatic inflammation, G207
and lung-gut injury, G845

Xenin

relaxant effect on rat ileum, via apamin-sensitive neurotensin-type receptors, G190

Z

Zinc

deficiency, uroguanylin expression in, G972

dietary, restriction, effects on intestinal uroguanylin expression, in rats, G972

Zinc finger proteins

in rat small intestine, G751

Zinc protoporphyrin IX

effects on biliary transport, in perfused rat liver, G1268

Zymogenic cells

in normal and transgenic mice, G1209
